Phase 5: Project Development

Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer

Step-by-step implementation of all three milestones

Milestone 1: Create the Flow

Activity 1: Flow that creates a Catalog Task assigned to Hardware

1. Open ServiceNow. Click **All** and search for **Flow Designer**.
2. Click **Flow Designer** under Process Automation.
3. Click **New** and select **Flow**.
4. In Flow properties enter Flow name = **Standard Laptop task**.
5. Application = **Global**. Run As = **System User**. Click **Submit**.
6. Click **Add a trigger**, search for **Service Catalog**, select it and click **Done**.
7. Under Actions click **Add an action**, search **Create Catalog Task** and select it.
8. Drag the **Requested Item** record (data pill) from the trigger into the Request Item field. Table auto-fills as Catalog Task [sc_task].
9. Enter Short description = **Laptop needs to Configured**.
10. Click **Add field value** and add: Description = Laptop needs to Configured; Assignment group = **Hardware**; Approval = **Approved**.
11. Leave the rest as default and click **Done**.
12. Click **Save**, then **Activate**, and click **Activate** again in the confirmation popup.

Milestone 2: Flow Assignment

Activity 1: Attach the flow to the Standard Laptop catalog item

1. Open ServiceNow. Click **All** and search **Maintain Items**.
2. Search the Name field for **Standard Laptop** and open the record.
3. Open the **Process Engine** tab.
4. Remove any other automation (Workflow / Execution Plan) and set Flow = **Standard Laptop task**.
5. Save the record (Update).

Milestone 3: Service Catalog Execution

Activity 1: Place the order and get approval

1. Click **All**, search **Service Catalog**, open it and click **Hardware**.
2. Open **Standard Laptop** and click **Order Now**.
3. On the Order Status page click the **Request Number** (e.g. REQ0010001).
4. Scroll down to the **Approvers** tab, right-click the approval record and choose **Approve**.
5. Open the **Requested Items** tab and open the RITM record.
6. Scroll to **Catalog Tasks** and open the task to confirm short description and assignment group.

Configuration Summary

Setting	Value
Flow name	Standard Laptop task
Application	Global
Run As	System User
Trigger	Service Catalog
Action	Create Catalog Task
Short description	Laptop needs to Configured
Assignment group	Hardware
Approval	Approved
